THE 7400 SERIES.

Morsø 7400-series takes the best qualities of modern wood burning stoves and uses them to give the consumer a modern take on a classic design.

At the same time the series celebrates Morsø's 160th anniversary and, for the first time presents the newly redesigned "Squirrel" motif. This motif decorates the matt black side of the stove and emphasizes the quality finish whilst celebrating our 160 year history as the leading manufacturer of high quality wood burning stoves.

The stove has been designed by World famous Danish designer Monica Ritterband. This new series is a follow up to the 7900 series which she also designed. In fact the 7400 series can be regarded as the "little sister" of the 7900 series as it encompasses the same large flame viewing area and design but with smaller overall dimensions. Thanks to its nifty size the stove is also suitable for smaller rooms where it will fit perfectly as an elegant, functional, cosy piece of furniture.

LARGE FLAME
VIEWING AREA

7400
SERIES

7440 PLAIN BASE

RATED OUTPUT (KW)	5.7
